### With the support of the International Society of Biomechanics (ISB):

Founded at Penn State University on August 30, 1973 to promote the study of all areas of biomechanics at the international level. The ISB promotes and supports international contacts amongst scientists, the dissemination of knowledge, and the activities of national organizations in the field of biomechanics.

### With the support of the De Luca Foundation, MA (USA):

Established by Professor Carlo J. De Luca to recognize researchers in the field of Electromyography and Biomechanics with emphasis on Motor Control. The foundation provides an annual award, the Delsys Prize; and the Emerging Scientist Award administered by the International Society of Biomechanics.
