

A FORUM TO FOSTER THE GROWING INTEREST IN SCIENTIFIC WORK AT THE INTERSECTION OF MOTOR CONTROL AND BIOMECHANICS.

SYMPOSIUM OF THE ISB TECHNICAL GROUP IN MOTOR CONTROL

MOTOR CONTROL IN BIOMECHANICS

IN CONJUNCTION WITH THE XXIX CONGRESS OF INTERNATIONAL (ISB) AND JAPANESE (JSB) SOCIETY OF BIOMECHANICS

31 JULY 2023 11:00–12:30 FUKUOKA (JAPAN)

ORGANIZERS: DR. JIM RICHARDS (UK) | DR. MATT S. STOCK (USA) | DR. WALTER HERZOG (CANADA)

INVITED SPEAKERS

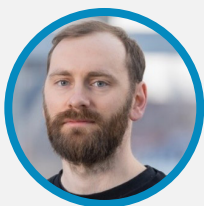

Dr. Jessica L. Allen
University of Florida
(USA)

Dr. Jesper Bencke
Copenhagen University Hospital
(Denmark)

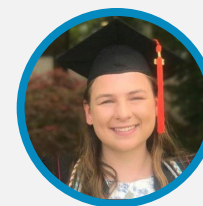

Dr. Míriam Febrer-Nafría
Universitat Politècnica de Catalunya
(Spain)

Daniel Koska
Chemnitz University of Technology
(Germany)

Dr. Le Li
Northwestern Polytechnical University
(China)

Dana Lorenz
Cleveland State University
(USA)

Keynote Speaker

Dr. Yasuharu Koike
Tokyo Institute of Technology
(Japan)

Who Should Attend:

Researchers and students with an interest in Biomechanics and Motor Control should attend. Participants will have the opportunity to discover the latest developments at the intersection of these two fields and discuss with experienced investigators.

Registration and Fee:

Participation is free for ISB/JSB congress attendees.

With the Support of the International Society of Biomechanics (ISB):

Founded at Penn State University on August 30, 1973 to promote the study of all areas of biomechanics at the international level. The ISB promotes and supports international contacts amongst scientists, the dissemination of knowledge, and the activities of national organizations in the field of biomechanics.
